

ASSURE CERTIFIED™

The Health and Performance Certification for Rigid Core Vinyl Flooring

WHAT IS IT?

ASSURE CERTIFIED™ from SCS Global Services and the Resilient Floor Covering Institute (RFCI), establishes uniform quality and performance for SPC and WPC Rigid Core luxury vinyl flooring regardless of where it is manufactured.

ASSURE CERTIFIED™ REQUIREMENTS

- Manufacturer has a quality control procedure
- Manufacturer has undergone an onsite audit
- Indoor Air Quality Compliant: Must comply with CDPH Standard Method v1.2 testing.
- Performance Tested: Must Meet:
 - ASTM F3261-17 ASTM F3261-17 characteristics testing for composition, size, tolerance, product thickness, and wear layer thickness.
 - ASTM F3781 standard test method for measurement of the fracture resistance of a modular resilient flooring's profiled edge(s) to an applied vertical force.
- Heavy Metals: Must be tested for lead, hexavalent chromium, cadmium, and mercury per test method EPA SW 846 Method 3052 and not exceed the limits of 100 PPM by combined weight. Additionally, Manufacturers attest that no lead, mercury, cadmium, or hexavalent chromium were intentionally added to the product in the manufacturing process.
- Ortho-Phthalates: Must be tested per CPSC-CH-C1001-09.4 or GB/T 22048-2008. Products cannot exceed 1,000 PPM for individual or total ortho-phthalates.

STEPS FOR CERTIFICATION

1. Scoping and Project Initiation

- Client contacts SCS and applies for certification
- Confirm scope and issue proposal
- Client signs Work Order initiating the project

2. Onsite Audit

(Not required if flooring is currently FloorScore® certified)

- SCS Auditor conducts an onsite audit of client operations and collects product samples for testing

3. Product Testing

Manufacturer contracts with accredited lab to perform the following tests:

- CDPH VOC testing (not required if FloorScore certified)
- Performance testing
- Heavy metals and ortho-phthalates

4. Corrective Actions

- SCS provides client with a report of audit findings
- Client responds to any necessary corrective actions

5. Certification

- Upon successful certification decision, client is issued approved logos and certificates and is listed on the SCS Green Products Guide.

DURABLE, RESPONSIBLE, HEALTHY
