

# PrimusGFS and Primus Standard Certification

## Comprehensive GFSI-Benchmarked Food Safety Assurance

**PrimusGFS Certification** is a GFSI-benchmarked food safety standard recognized by buyers throughout the U.S., Canada, Mexico, and South America. Designed for farms, harvest crews, indoor agriculture, packinghouses, cooler/cold storage operations, and processors, PrimusGFS demonstrates that your food safety program meets globally recognized expectations. Its integrated approach allows certification of multiple operations simultaneously (e.g., farm and packhouse) during the same audit, saving you time and money.

**Primus Standard** is a non-GFSI certification covering Good Agricultural Practices (GAP) and Good Manufacturing Practices (GMP) for packagers and companies seeking entry-level food safety auditing—an ideal steppingstone to PrimusGFS.

## Why Choose SCS?

### Superior Customer Service

- **40+ years of expertise** in food auditing, and certification
- **Highly dedicated and responsive** customer service team
- **Quick, up-front competitive pricing** with no hidden fees
- **Ease and flexibility** of audit scheduling
- **Experienced auditors** and technical team

### Maximum Value Through Bundling

Save time and money by bundling your PrimusGFS audit with:

- Other Food Safety audits (GLOBALG.A.P., BRCGS, or SQF certification)
- Consumer labels (USDA Organic, Non-GMO Project, Gluten-Free, Plant-Based certification)
- Sustainability (Sustainably Grown, Rainforest Alliance, Fair Trade USA, EFI)
- SMETA Social Audit, California Prop 12 certification and more

## Certification Process

“SCS Global Services is a delight to work with – they are professional, very accommodating and offer a wide variety of services that fit our current and future needs. GloriAnn Farms is pleased to be using the many great services offered by SCS.”

**Shaina Boak**

Director of Food Safety | GloriAnn Farms, Inc.
