

Online Self-Paced Training

Online self-paced training includes material such as covered in a live course. Listen to an instructor present while viewing the PowerPoint (downloadable). Stop and start at your own pace, and take up to a year to complete.

All courses earn a certificate – download when completed. HACCP courses are IHA Approved and include logos.

Progress through multiple modules and complete quizzes (retake multiple times to learn more). When done with all modules, take the final exam (based on rotated quizzes) - three tries, open book, to get a 70% or better score.

After registering, you will receive an email with your login information (please allow a day).
